In his own words ...

a message from Jim Posewitz,
MEIC Pledge Member since 1974

“I am an MEIC pledge because I am old enough to remember when Montana had the political will and administrative skill to protect our precious waters and our awesome landscape. When that will collapsed and our government groveled and quivered before every corporate raider, it fell to the people to protect the natural amenities we all treasure. The people were led by MEIC; a hardy little band that remained true to the conservation ethic that characterizes us as a people. MEIC found the navigational star followed by conservation giants like Granville Stuart, and Lee Metcalf and then, they more than anyone else, preserved our course. A small monthly pledge to keep wind in their sails is—well, it is an honor.”
