

CELEBRATING 50 YEARS

CELEBRATE WITH US!

Help us celebrate our 50th Anniversary
by sponsoring September 16 event!

CELEBRATING 50 YEARS

MEIC

Dear Friend,

You've supported 50 years of wins for Montana's environment – Let's celebrate!

MEIC's 50th Anniversary celebration event is set to take place on September 16, 2023. We'll hold our gathering at Little Smith Creek Ranch to appreciate and recognize MEIC's community of rabble-rousers, changemakers, and visionaries and the environmental protections they've made possible. Guests will help us reflect on 50 years of good work and envision the next chapter of MEIC surrounded by the Bitterroot Mountains. As one of MEIC's generous, supportive partners, we hope you will consider supporting our work for a more clean and healthful environment in Montana by sponsoring this event.

It takes a village to make MEIC's work happen. From keeping fossil fuels in the ground to defending Montana's beloved waterways from destructive hardrock mining projects to promoting policies that will protect our landscapes from hazardous pollutants, MEIC gets things done. We don't do it alone; we have a deep bench of supporters and partners like you. We have a lot to celebrate from the past 50 years of MEIC's work and are excited and grateful for your partnership as we embark upon the next 50 years. We've never seen as many threats to our clean and healthful environment, and MEIC's work is more important than ever.

Everyone who enjoys Montana's clean air, cold water, and breathtaking views has benefited from MEIC's work and from the generosity you've shown us. Having your sponsorship for our 50th Anniversary Celebration would make a huge difference for our event's success. We are deeply grateful for the vital support that you've provided MEIC over the years.

If you would like to sponsor this event, please contact Cari Kimball (ckimball@meic.org) no later than July 31, 2023. We hope you will join us in making this once-in-a-lifetime event a successful celebration for Montana's clean air, water, land, and life-sustaining climate!

Warmly,
The Entire MEIC Board and Staff Team
